## 2-Device Universal Remote Control User's Guide

The RCRST02GR 2-Device Universal Streaming Remote Control is the perfect solution for TV and streaming player home theater setups, with all the functionality you need to simplify home entertainment. It lets you control 2 devices from a single, easy-to-use remote.

# RCRST02GR

# Guía del Usuario del Control Remoto Universal para 2 Dispositivos

El Control Remoto para Transmisión de Video Universal para 2 Dispositivos RCRST02GR es la solución perfecta para configuraciones de teatro en casa reproductor de transmisión de video y TV, con toda la funcionalidad que usted necesita para simplificar el entretenimiento en su hogar. Le permite controlar dos dispositivos desde un sólo control remoto fácil de usar.

## **ENGLISH**

#### **FCC Statement:**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

CAN ICES-3 (B)/NMB-3 (B)

#### Avis d'Industrie Canada

CAN ICES-3 (B)/NMB-3 (B)

## Step 1: Install your batteries

Your universal remote requires two AAA alkaline batteries (not included).

#### To install the batteries:

- 1. Press and push the battery compartment cover to remove it.
- 2. Insert the batteries, matching the batteries to the (+) and (-) marks inside the battery compartment.
- 3. Push the battery cover back into place.

#### **Battery Precautions:**

- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium) batteries.
- Always remove old, weak or worn-out batteries promptly and recycle or dispose of them in accordance with Local and National Regulations.

## Step 2: Program your Remote

## **Direct Code Entry**

To program your remote to control up to two components, follow these steps:

- 1. Manually turn on the component you wish to program the remote to operate.
- 2. Find the five-digit code for your brand of TV or streaming player in the enclosed code lists.
- 3. Press and hold the SET UP key until the indicator light turns on.
- 4. Release the SET UP key.

Press and release the TV or STREAMING key. The indicator light blinks and then remains lit.

**Note**: If the indicator light blinks multiple times, you've entered an invalid code. Start from step 2 again.

Aim the remote at the component and press the **POWER** key. The component should turn off.

Note: If your component does not respond, try all the codes for your brands. If the codes do not work or your brand is not listed, try the Code Search Method that follows.

## **Auto Code Search**

If your TV or streaming player does not respond after you have tried all the five-digit codes for your brand, or if your brand is not listed, try searching for your code via the Auto Code Search Entry Method. To program your remote via the Auto Code Search Entry Method, follow these steps:

- 1. Manually turn on the component you wish to program the remote to operate.
- 2. Press and hold the **SET UP** key until the indicator light turns on.
- 3. Release the SET UP key.

 Press and release the component key you wish the remote to control—the TV or STREAMING key. The indicator light blinks once and remains lit.

Important: Find the OK key on your remote (don't press it yet).

5. Press the **POWER** key to start the auto code search.

The remote will automatically go through all the codes in its library one by one. A new code is sent every 4 seconds and the **POWER** key will blink when the new code is sent. This may take several minutes to complete, but make sure you keep watching your component until it turns off.

6. As soon as the component turns off, press the  $\bf OK$  key within 4 seconds. The indicator light turns off.

**Note**: If you wait longer than 4 seconds to press **OK**, the remote goes to the next code—you will need to start the code search from step 1 again.

### Manual Code Search

If your TV or streaming player does not respond after you have tried all the five-digit codes for your brand, or if your brand is not listed, try searching for your code via the Manual Search Entry Method. To program your remote via the Code Search Entry Method, follow these steps:

3

- 1. Manually turn on the component you wish to program the remote to operate.
- 2. Press and hold the **SET UP** key until the indicator light turns on.
- 3. Release the SET UP key.

ENGLISH

2

4. Press and release the component key you wish the remote to control  $-\mathbf{TV}$  or STREAMING key. The indicator light blinks once and remains lit.

Important: Find the OK key on your remote (don't press it yet). You will need to press this key

5. Press and release the POWER key until the component turns off. Important: You may have to press the POWER key up to 200 times

6. As soon as the component turns off, press the OK key within 4 seconds. The indicator light turns off.

Note: If you wait longer than 4 seconds to press OK, the remote goes to the next code -- you will nee to start the code search from sten 1 again

#### Tour of the Remote

In most cases, the keys on this remote perform the same functions as the keys on your original remotes once you've programmed this remote to operate your components. Illuminated POWER key serves as an indicator light to provide feedback. It also turns your devices on and off.

SET UP puts the remote in code programming mode.

Device keys (TV, STREAMING) put the remote in the right mode to control your device. The INPUT toggles through your TV input choices.

OPTIONS, RETURN, and HOME perform the same functions as on your original streaming player remote.

MENU puts the remote in menu mode; it also accesses the same features as the key on your original remote in menu mode.

MUTE and VOLUME +/- keys adjust TV volume

Arrow keys and OK act as navigation and selection keys in device guides and menu systems when the remote is in menu mode.

REVERSE, PLAY/PAUSE, FORWARD, PREVIOUS, STOP and NEXT keys control playback on your streaming player.

Red. green, vellow, and blue keys access additional features on your streaming player.

IMPORTANT: Because this remote controls more than one device, you must first "tell" the remote which device you wish to operate. That means, if you wish to operate your TV, you must first press the TV key to put the remote in the TV Mode. The remote stays in that device mode until you press a different device key. For example, if your remote is in TV Mode and you want to operate the streaming player, you must press the **STREAMING** key to change device modes.

 $\bigcirc$ 

0000

RСЛ

#### **Master Power**

By default, each time you press the POWER key, this remote automatically turns on or off the devices you've programmed it to operate. For example, if you want to turn both your TV and streaming player on at the same time, all you have to do is press the POWER key on this remote (if you've already programmed the remote to operate these devices). A single

If you want to turn just one of the devices on or off, press the key for the device you want to turn on/off, and then press POWER within 3 seconds. For example, if you want to turn just your TV on, press the TV key on this remote, and then press POWER within

#### Code Retrieval

- 1. Press and hold the Code Search key until the LED lights up.
- 2. Press Device key you desire to check code number. LED flashes and remains on.
- 3. Press Code Search key and LED goes off.
- 4. Starting with REVERSE (1) key, press and release each word/number on the keypad in the following order: 1-5. The word/number that causes the LED to blink is the first number of the code. As you find each number of the code, write it down for reference. Then start with Word/Number 1 again.

Reverse = 1

Play/Pause = 2

Forward = 3 Previous= 4

Stop = 5

5. Repeat step 4 until you have retrieved all five numbers. After the fifth number is retrieved, the LED will turn off. Tip: To exit the code retrieval at any time press TV or Streaming key.

#### Troubleshooting

#### Problem: The remote does not operate your device.

- Make sure the remote is in the correct mode by pressing the corresponding device key (TV, STREAMING). This tells the remote which device to operate.
- . Remove any obstacles between the remote and the device. Make sure you're aiming the remote at the device's IR
- . Make sure the batteries are fresh and are properly installed. Replace the batteries with two new AAA batteries, if necessary (see the Battery Installation section).

#### Problem: The remote can't be programmed to operate your device.

- If you are testing the remote while programming it, you may be too far away from the device or at a wrong angle. There must be an unobstructed path between the remote and the IR sensor on the device. Move closer and make sure you point the remote at the device you're trying to control.
- . If you're using the Direct Entry programming method to enter the codes for your brand and the unit is still not functioning properly, try the auto, or manual search method.
- . Make sure the batteries are fresh and are properly installed.

#### Problem: The remote doesn't perform commands properly.

. Make sure the remote is in the correct mode by pressing the corresponding device key (TV, STREAMING). This tells the remote which device to operate.

- . You may have pressed an invalid key for the mode the remote is in.
- . There is a possibility that a programmed code may only be able to control some of your device features (for example, only turns a device on and off). To confirm that the device key is programmed with the correct code for maximum functionality, test the device. Attempt to control a variety of the device's functions with the remote. If some of the features of your devices don't work, try programming the remote with a different code in the list using the Direct Code Entry Method, until you find the code that allows the remote to control the majority of your device's functions. Different codes can provide different levels of functionality.

#### Problem: The POWER key does not light when you press a key.

- . You may have pressed an invalid key for the mode the remote is in.
- Make sure the remote is in the correct mode by pressing the corresponding device key (TV, STREAMING). This tells the remote which device to operate.
- Make sure the batteries are fresh and are properly installed. Replace the batteries with two new AAA batteries, if necessary (see the Battery Installation section).

#### Problem: The device's menu does not appear on the TV screen.

- Make sure you have connected the device to your TV properly and selected the correct input. (See your devices' Owner's Manuals for proper connection procedures.)
- . Make sure the remote is in the correct mode by pressing the corresponding device key (TV, STREAMING). This tells the remote which device to operate.
- · Menu access isn't supported for all brands. You may need to use your original remote control to access menu
